## EDUCATION

### University of California Irvine

Class of 2024

GPA: 3.990

Major: Informatics, B.S.,  
Specialization in Human-  
Computer Interaction

## TECHNICAL SKILLS

Affinity Mapping  
Confluence  
Excel  
Figma  
Google Suite  
Java  
Jira  
Microsoft Word  
Miro  
Python  
User Interviews  
UserTesting

## AWARDS

Deans' Honor List  
Deans' Scholarship  
Regents' Scholarship

## CLUBS

Delta Sigma Pi  
Design at UCI  
Women in Computer Science

## EXPERIENCE

### RESEARCH ASSISTANT

**The Paul Merage School of Business | January 2022 - Present**

- Evaluated 100+ unicorn companies.
- Developed skills in data entry, analysis, and research.
- Provided support to researchers through verifying data.

### STAR GROUP RESEARCH ASSISTANT

**University of California, Irvine | April 2022 – March 2023**

- Conducted 80+ hours of research on cultural responsiveness and social computing.
- Collaborated with researchers to create codes for 90+ mental health applications.
- Analyzed existing mental health applications based on cultural responsiveness, BIPOC focus, health barriers, identity, virtual community, and languages.

### UNDERGRADUATE READER

**Department of Informatics, UCI | September 2022 - December 2022**

- Worked 200+ hours throughout 10 weeks.
- Graded assignments for 75+ students in the Donald Bren School of Information and Computer Sciences.
- Coordinated with a professor and teaching assistants to address student concerns and questions.

### UX RESEARCH INTERN

**Zendesk | June 2022 – August 2022**

- Conducted 30+ moderated usability tests, unmoderated usability tests, and user interviews on product features.
- Created research artifacts to present findings to 10+ stakeholders.
- Socialized research findings to provide actionable recommendations to cross-functional stakeholders.

## ACTIVITIES

### UX DESIGNER

**Commit the Change, UCI | September 2022 – Present**

- Designed a web-based application for a nonprofit.
- Collaborated with developers and the nonprofit to create a web-based query system.
- Worked with four designers to create wireframes and prototypes.

### PROJECT COORDINATOR

**Design at UCI | June 2022 – Present**

- Selected 100+ designers to take part in quarter-long project teams.
- Hosted 40+ hours of weekly design and research workshops.
- Taught topics such as user interviews, usability testing, user testing, and iterative design.

### DIRECTOR OF TECHNOLOGY

**Delta Sigma Pi | June 2022 – December 2022**

- Refined the visual appearance of the fraternity website using CSS.
- Updated the images and content placed on the website.
- Utilized GitHub to push and record changes on the website.
